PROFESSIONAL PROFILE

Versatile Software Developer with professional experience developing and maintaining business software. My main strength is backend development with Java and Spring Boot, supported by database and DevOps knowledge plus hands-on exposure to Angular and Flutter. Currently working on the evolution of an ERP built with Java 8, Payara and MariaDB, handling features, incidents and data persistence. Software Engineering graduate from Universidad Veracruzana, certified in Docker, Kubernetes, GitHub Actions and DevOps. Seeking continued professional growth within a team where I can take on broader challenges, deepen my backend specialization and contribute to business software solutions.

EXPERIENCE

Gigante de los Azulejos y Mármoles

Jul 2026 — Present

Java Backend Developer

Java 8 · Payara · MariaDB · SQL · ERP

- Develop and maintain features for a business ERP using Java 8, the Payara application server and MariaDB.
- Analyze and resolve issues in business logic, SQL queries and data persistence across system modules.

JAMOVA Technology

2020 — Jun 2026

Software Developer / IT Support

- Developed a Flutter mobile app with Java Spring Boot backend for company income and expense management.
- Database administration and maintenance.
- Technical support for network infrastructure and connectivity.

Dislyshop

Sep — Nov 2024 · Remote

Professional Internship — Frontend Developer

- Built web interfaces with Angular and Angular Material, consuming APIs and managing reusable components.
- Configured development environments using Docker and Docker Compose.
- PostgreSQL database management.
- Team collaboration via GitHub for version control and Jira for ticket tracking.

PROJECTS

Code Sale — Point of Sale System

🌐 GitHub

Java · Java Swing · PostgreSQL

- Desktop application with category-based product management, role-based user control (manager/employee), sales registration and automatic PDF ticket generation.

Spendify — Personal Finance Manager

 GitHub

[Flutter](#) · [Java](#) · [Spring Boot](#) · [PostgreSQL](#) · [Figma](#)

- Full development cycle from requirements gathering and Figma design to implementation.
- Income and expense tracking with categories, budget alerts and circular chart visualization.

Personal Web Portfolio

 [View site](#)

[HTML](#) · [CSS](#) · [JavaScript](#)

- Responsive personal website showcasing projects, tech stack and professional profile.

EDUCATION

Software Engineering

2021 — 2026

Universidad Veracruzana · Graduated

TECHNICAL SKILLS

Backend	Java 8/17/21, Spring Boot, Node.js, APIs RESTful, Hibernate, JSP
Frontend	Angular, Angular Material, React, JavaScript, TypeScript
Frameworks	Spring Boot, Angular, Flutter / Dart
Databases	MariaDB, MySQL, PostgreSQL, SQL
Servers	Payara Server, Apache Tomcat
DevOps	Docker, Docker Compose, Kubernetes, GitHub Actions
Tools	Git, GitHub, Gitlab, Jira, Figma, Postman, Beyond Compare

PROFESSIONAL SKILLS

- Proactivity
- Self-directed learning
- Assertive communication
- Adaptability to change
- Teamwork
